For Research Use Only

APC Anti-Human CD163 (GHI/61)

Catalog Number: APC-65169 6 Publications

Basic Information

Catalog Number: APC-65169 Concentration:

100tests, 5 ul/test Source: Mouse Isotype: IgG1, kappa

EN UN Q8 Fu CC

GeneID (NCBI):
9332

ENSEMBL Gene ID:
ENSG00000177575

UNIPROT ID:
Q86VB7

Full Name:
CD163 molecule
Calculated MW:
1156 aa, 125 kDa

GenBank Accession Number:

BC051281

Purification Method: Affinity purification

CloneNo.: GHI/61

Recommended Dilutions: FC: 5 ul per 10^6 cells in 100 µl suspension

Excitation/Emission maxima wavelengths: 650 nm / 660 nm

Applications

Tested Applications:

FC

Cited Applications:

FC

Species Specificity:

human
Cited Species:
human

Positive Controls:

FC: human PBMCs,

Background Information

CD163, also known as M130, is a membrane glycoprotein which belongs to the scavenger receptor superfamily (PMID: 8370408). It is an acute phase-regulated and signal-inducing macrophage protein expressed exclusively in monocytes and tissue macrophages (PMID: 11196644). CD163 mediates endocytosis of haptoglobin-haemoglobin complexes (PMID: 11196644). The uptake of haptoglobin by macrophages contributes to the recycling of iron and also to the inflammatory response (PMID: 22900885). Soluble CD163 (sCD163), as a result of ectodomain shedding during inflammatory activation of macrophages, circulates in blood and has been suggested as a plasma/serum marker for macrophage activity (PMID: 12570164).

Notable Publications

Author	Pubmed ID	Journal	Application
Yincheng Liu	40068383	Transl Oncol	FC

Storage

Storage:

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

PBS with 0.09% sodium azide and 0.5% BSA, pH7.3 $\,$

Selected Validation Data

1X10^6 human PBMCs were surface stained with CL488 Anti-Human CD14 and 5 ul APC Anti-Human CD163 (APC-65169, Clone: GHI/61), or Mouse IgG1 Isotype Control. Cells were not fixed. Monocytes were gated.
