

Catalog Number: HZ-1030

## **Data Sheet**

Animal Component-Free

Human cell expressed

Tag-Free

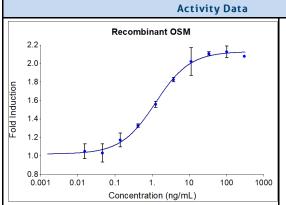

**Endotoxin Free** 

## **Product Description**

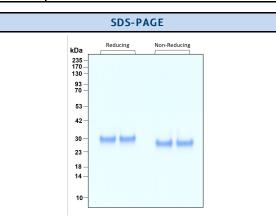

Animal-free Recombinant Human Oncostatin M is expressed in human 293 cells as a monomeric glycoprotein with an apparent molecular mass of 30 kDa. This higher molecular mass is due to glycosylation and is not seen in the E. coli expressed form of this cytokine (22kDa). Glycosylation contributes to stability in cell growth media and other applications. This product is produced in a human cell expression system with serum-free, chemically defined media.

| Alternative Names | oncostatin M, OSM   |  |
|-------------------|---|--|
| Source            | Human Embryonic Kidney cells (HEK293). HEK293-derived OSM protein |  |

| Specifications    |   |   |  |  |  |
|-------------------|---|---|--|--|--|
| Test              | Method  | Specification   |  |  |  |
| Activity          | Dose-dependent stimulation of the proliferation of human TF-1 cells (human erythroleukemic indicator cell line) | 0.1-1.5 ng/mL   |  |  |  |
| Molecular<br>Mass | SDS-PAGE  | 32 kDa reduced, 28 kDa non-reduced, monomer, glycosylated |  |  |  |
| Purity            | SDS-PAGE  | >95%  |  |  |  |
| Endotoxin         | LAL   | <1 EU/ μ g  |  |  |  |

Recombinant human OSM (HZ-1030) stimulates dosedependent proliferation of the TF-1 human erythroleukemic indicator cell line. Cell number was quantitatively assessed by PrestoBlue® Cell Viability Reagent. TF-1 cells were treated with increasing concentrations of GMP recombinant OSM for 96 hours. The EC50 was determined using a 4-parameter non-linear

| Preparation   |   |  |  |  |
|---|---|--|--|--|
| Shipping Temperature ambient temperature  |   |  |  |  |
| Formulation   | Formulation 1x PBS, See Certificate of Analysis for details |  |  |  |
| Reconstitution  Briefly centrifuge the vial before opening. It is recommended to reconstitute the protein to 0.2 mg/mL in sterile 1x containing 0.1% endotoxin-free recombinant human serum albumin (HSA). Gently swirl or tap vial to mix. |   |  |  |  |

|                       | Product Form              | Temperature Conditions             | Storage Time<br>(From Date of Receipt) |
|-----------------------|---------------------------|------------------------------------|--|
|                       | Lyophilized               | -20°C to -80°C                     | Until Expiry Date                      |
| Stability and Storage | Lyophilized               | Room Temperature                   | 2 weeks                                |
|                       | Reconstituted as per CofA | -20°C to -80°C                     | 6 months                               |
|                       | Reconstituted as per CofA | 4°C                                | 1 week                                 |
|                       |                           | Avoid repeated freeze-thaw cycles. |  |
